

Anita Trott  
Vice President Staffordshire Bull Terrier Club of Canada

I am the first generation of my family to be born in Canada as all my family are from England. My involvement with Staffies is life long as is my legacy from my Grandfather Eric Humphrey. There was a Staffy in the house when I was first brought home from the hospital and a second came into the family a month afterwards. Both of them protected and played with me as I grew up, and in turn I shared as much sliced cheese with them as I could. I was never really involved in the conformation part of dog shows growing up, but was a steward in numerous obedience rings and helped run a number of flyball tournaments. I have also helped with exhibitions of obedience and helped teach others about our breed. I have however, in recent years shown our two latest Staffies in the conformation ring.

Since the ban on our lovely breed was put in place in 2005, I have been to a number of rallies and events to help support our breed, show people our lovely Staffies, and help explain the misconceptions about our dogs.

I am a new member of the Canadian Kennel Club and a long-time member of the Staffordshire Bull Terrier Club of Canada. I am a new member of the executive of the Staffordshire Bull Terrier Club of Canada for this term as the Vice-President.
